Finest Swiss Oral Care 

Trisa
OF SWITZERLAND

SUSTAINABLE ORAL CARE PRODUCTS AND PACKAGING

TRISA is conducting research in all product areas to find alternatives to fossil raw materials. Toothbrushes made of wood, bio-based plastics and recyclates are already reality at TRISA. TRISA also offers environmentally friendly packaging solutions. Toothbrushes, for example, are packaged with recycled cardboard and with films made of up to 100% recycled PET.

NATURAL CLEAN

With the innovative combination of ecological materials, the TRISA Natural Clean toothbrush convinces with a high cleaning performance and is free from petroleum-based plastics.

- Ergonomic handle made of FSC-certified Swiss beech wood
- Brush head made of hygienic bio-plastic based on renewable raw materials
- Soft bristles on the basis of natural castor oil for thorough tooth cleaning
- Also available for children of 6 years and older: Natural Clean young with shorter handle and smaller brush head

COMPACT SOFT

The TRISA Compact Soft is a sleek toothbrush in a timeless design. The eye-catcher in every bathroom.

- Ergonomic and elegant handle made from over 90% renewable resources
- Ultra-thin, soft filaments with rounded bristle ends for gentle and effective cleaning of teeth
- Compact brush head effectively cleans even hard-to-reach areas
- In attractive pastel colors

Handle: 90% renewable raw materials

RE CARE

The elegant and material-saving handle is made of recycled PET bottles. This gives the material a «second life» – a sign of the sustainable use of resources.

- Ergonomic and resource-saving handle with recycled PET
- The compact brush head enables optimum cleaning even in hard-to-reach areas
- Effective 2-step bristle cut for thorough tooth cleaning
